

COLOURSTRINGS SA

COLOURSTRINGS MUSIC KINDERGARTEN INTRODUCTORY COURSE

5 day course

26th -30th Aug

Colourstrings Music Education is based on the principles of Kodály who saw music as a birth-right and recognised the voice as the fundamental tool for experiencing and expressing music. Through singing, children enjoy music, develop aural skills and become musically literate. They are taught musicianship through age appropriate songs that are in the correct range.

This course covers the Colourstrings teaching principles and methodology, the Singing Rascals song books, child psychology, lesson planning, repertoire for babies through to 5 years, dance and movement ideas, principles of Kodály and the philosophy of Colourstrings. The course also includes daily Kodály tuition. This is not a franchise, but rather a musical philosophy that is based on true musical development of children.
